Maybe even better than free.

Keep your files private, or send your download links only to friends or family. It is also allowed to link to the download page from websites and communities. File is free to use with no gotchas and no hidden fees. The cost of that data transfer is covered by your internet service or the data plan on your phone. Our service is completely free for everyone. We have no file size limit. filehosting provides an easy possibility for you to send large files to your friends. No account or credit card is required to get started. Just upload the file you want to share with your friends and we send you a download link to your file. You don't needany special software installed to be able to download your files. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also,many team chat apps have limits to the size of files that can be transferred within their apps. You can upload any type of file (movies, music, documents,images, zip files and more). When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You can give this download linkto your friends by mail or instant messenger. You decide who you want to share your files with. Using file, you can circumvent those limits without paying toupgrade your team chat service. If only we could, we surely would! On the other hand, using file can actually save you money. Any file in any format can beuploaded and downloaded for free. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferredbetween your computer or phone and our servers, then from our servers to your friends device. Files transferred the old-fashioned way tend to pile up and beforgotten about, eventually costing you money in data storage fees. There are no restrictions on the number of times a file can be downloaded. This is easy, fastand reliable filehosting! You don't need any kind of premium-accounts. Files can be downloaded from any computer from our high speed servers. So try ourfree and simple filehosting service now. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Simplyupload your file and share the link. Unfortunately, we can't make that part free.
