We have no file size limit. You decide who you want to share your files with. Using file, you can circumvent those limits without paying to upgrade your team chat service. If only we could, we surely would! On the other hand, using file can actually save you money. filehosting provides an easy possibility for you to send large files to your friends. Keep your files private, or send your download links only to friends or family. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. No account or credit card is required to get started. Simply upload your file and share the link. It is also allowed to link to the download page from websites and communities. Any file in any format can be uploaded and downloaded for free. Why pay storage fees for a file that you just wanted to sendto a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Files transferred the old-fashionedway tend to pile up and be forgotten about, eventually costing you money in data storage fees. You can upload any type of file (movies, music, documents,images, zip files and more). Our service is completely free for everyone. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You can give this download link to your friends by mail or instant messenger. Alternatively you can choose to share your download links on blogs,forums and social networking sites. Unfortunately, we can't make that part free. The cost of that data transfer is covered by your internet service or the data planon your phone. File is free to use with no gotchas and no hidden fees. Just upload the file you want to share with your friends and we send you a download linkto your file. There are no restrictions on the number of times a file can be downloaded. Files can be downloaded from any computer from our high spee
